Welcome to Milton

Milton International School offers Cambridge programmes and qualifications that prepares school students for life, helping them develop an informed curiosity and a lasting passion for learning.

Benefits for learners

Cambridge programmes and qualifications have a proven reputation for being an excellent platform to prepare students for education and life beyond school. Learners can be confident that the evaluations they receive in school are a fair representation of their actual potential and consistent with global standards.

Cambridge International AS & A Level

Cambridge International Advanced Level is a two-year course, and Cambridge International AS Level is a one year course that is typically made for learners aged 16 to 19 years.

Our curriculum

Cambridge International AS & A Level curricula are flexible.

Learners can specialize or study a range of subjects, ensuring learning is meaningful and relevant.

Giving learners the power to choose helps motivate them throughout their studies. This flexibility develops the learners' knowledge, understanding and skills in:

- in-depth subject content
- independent thinking
- applying knowledge and understanding to new and familiar situations
- handling and evaluating different types of information sources
- thinking logically and presenting ordered and coherent arguments
- making judgments, recommendations and decisions
- presenting reasoned explanations, understanding implications and communicating them clearly and logically
- working and communicating in English language

Cross-curricular perspectives

In addition to developing in-depth subject knowledge, students must connect their learning across the subjects in the curriculum. Cambridge International AS & A Level Global Perspectives & Research is designed precisely with this in mind. It is a cross-curricular, skills-based course that encourages students to think critically about a range of global issues.

University recognition and research

Learners use Cambridge International AS & A Levels to gain places at leading universities worldwide including in the UK, Ireland, USA, Canada, Australia, New Zealand, India, Singapore, Egypt, Jordan, South Africa, the Netherlands, Germany and Spain.

Cambridge Learners

The Cambridge approach develops learners who are:

- **confident** in working with information and ideas – their own and those of others
- **responsible** for themselves, responsive to and respectful of others
- **reflective** as learners, developing their ability to learn
- **innovative** and equipped for new and future challenges
- **engaged** intellectually and socially, and ready to make a difference in the world.

Cambridge students develop a deep understanding of subjects with independent thinking skills

Cambridge International AS & A Level Subjects offered in Milton

Cambridge English

Learners choosing Cambridge International AS & A Level Literature in English will critically analyze a range of texts in the three main forms: prose, poetry and drama, from a wide range of different periods and cultures.

Cambridge International AS & A Level
English – Language

Cambridge Mathematics

Cambridge International AS & A Level Mathematics builds on the skills acquired at Cambridge IGCSE or equivalent level.

Cambridge International AS & A Level
Mathematics

Cambridge Sciences

Biology, Chemistry and Physics are available at Cambridge International AS & A Level. They focus on the understanding of concepts and the application of scientific ideas in novel contexts.

Cambridge International AS & A Level
Biology
Chemistry
Physics

Cambridge Languages

Cambridge International AS & A Levels in languages are the ideal foundation for university study, or to improve career prospects. Students learn how to use the language in a variety of situations. Through their studies, learners can expect to achieve greater fluency, accuracy and confidence in the language.

Cambridge International A Level¹
French

Note: All Cambridge A level languages' syllabus contains both language and literature

Cambridge Humanities and social sciences

Humanities and social sciences enable learners to develop a deeper insight and wider perspective on social issues and cultures around the globe.

Cambridge International AS & A Level
Global Perspectives & Research

Cambridge Business, technical and creative

Business, technical and vocational subjects prepare learners for the world of work, and provide a foundation for university by building on the understanding of concepts and practical skills gained at Cambridge IGCSE or equivalent level.

Cambridge International AS & A Level
Information Technology

Reporting achievements

Every subject that a learner engages at Cambridge International AS & A Level is evaluated separately. The Cambridge International A Level is evaluated on a grade scale from A* grade, awarded for the highest level of achievement, to E, indicating the minimum required performance. There is no A* grading in the case of Cambridge International AS Levels, which runs from grade A to grade E only.

Performance feedback

Cambridge International AS Level can be used for valuable feedback for learners about their performance, identifying strengths and weaknesses before they complete their full Cambridge International A Level. Taking the Cambridge International AS Level examination during the Cambridge International A Level course gives learners helpful pointers that they can use to set learning goals for the second half of the course. It can also give learners the motivation and momentum to complete their studies.

Group awards

The Cambridge AICE Diploma is a group certificate which requires learners to study subjects drawn from three curriculum areas within Cambridge International AS and A Level: Mathematics and sciences, Languages, Arts and Humanities.
